Dear Leon,

Enclosed are the records you want, with a little more luck than I'd expected.

There are clear copies of both the holograph and the typed version of the Katzenbach memo for Moyers. These are from Department of Justice (Criminal Division) file 129-11. The unclear copy is the one I mentioned, the FBI's copy. Courtney Evans then was the FBI's liaison with the Attorney General, etc. He may have had the rank of Assistant Director.

I paid the student $10. The receipt is enclosed.

Best wishes,

Harold Weisberg
